1. 20080107630. 06 Apr 07. 08 May 08. HUMAN MATRIX METALLOPROTEINASE-8 GENE DELIVERY ENHANCES THE ONCOLYTIC ACTIVITY OF A REPLICATING ADENOVIRUS. Hay; John G., et al. 424/93.6; 435/219 A61K39/12 20060101 A61P35/00 20060101 C12N9/50 20060101

2. 20050201984. 24 Feb 05. 15 Sep 05. Recombinant adenoviral vectors and their utility in the treatment of various types of fibrosis: hepatic, renal, pulmonary, as well as hypertrophic scars. Armendariz Borunda, Juan, et al. 424/93.2; 435/235.1 435/456 A61K048/00 C12N015/861 C12N007/00.

3. 20040156827. 01 Dec 03. 12 Aug 04. Recombinant adenoviral vectors and their utility in the treatment of various types of fibrosis: hepatic, renal, pulmonary, as well as hypertrophic scars. Armendariz Borunda, Juan, et al. 424/93.2; 435/456 A61K048/00 C12N015/861.

4. 20030003077. 18 Mar 02. 02 Jan 03. Recombinant adenoviral vectors and their utility in the treatment of various types of fibrosis: hepatic, renal, pulmonary, as well as hypertrophic scars. Armendariz Borunda, Juan, et al. 424/93.2; 435/235.1 435/320.1 435/456 A61K048/00 C12N007/00 C12N015/861.

5. EP001221490A2. 14 Sep 00. 10 Jul 02. RECOMBINANT ADENOVIRAL VECTORS AND THEIR UTILIZATION IN THE TREATMENT OF LIVER CIRRHOSIS. ARMENDARIZ, BORUNDA JUAN, et al. C12N015/861; C12N009/64 A61K038/48 A61K048/00.
